

1 MILLION WOMEN BY 2020

Currently investing in:

...women's economic progress and global jobs

Currently reducing:

... gender based violence

Currently improving:

...children's education, nutrition and healthcare

“AN EASY AND WORTHWHILE WAY FOR PROFESSIONALS IN THE LEADERSHIP PIPELINE TO MAKE A DIFFERENCE – ONE HOUR A MONTH for 6 MONTHS”

Collective Changes provides proven methodologies within a 6 month structured virtual and mobile business and leadership mentoring program that matches mentees who work in small businesses, social enterprises and entrepreneurial ventures around the world with leadership mentors in the small business, nonprofit and corporate world. Our program provides the expertise to assist those just starting out or emerging into the growing fields of social enterprise and business with the keys to success.

- We invest in women's economic progress by providing business skills through virtual education.
- We use IBM/World Bank entrepreneurial tool kit available in 15 languages
- Mentees develop a business plan, marketing plan and cash flow analysis through cloud based educational opportunities
- We mentor them through Chronus mentoring software and track their progress and success
- Mentors engage in GLEAN™ training to improve leadership skills and global mindset
- We build global networks of women – helping women with peer-to-peer communities.
- We ask that all of the enrolled participants give back by becoming mentors themselves
- We will be sustainable in three years by providing corporate partners the ability to survey women owned SMEs and their decisions to buy including when, where and why. Women make over 80% of the families purchasing decisions so this information will be extremely valuable in developing nations in the future.

What you can do...

- Join today to offer your services as a Mentor and share your business knowledge, wisdom and experience. The commitment is a minimum of 1 hour a month for 6 months. Additionally you will learn GLEAN™ leadership skills as a gift for your volunteer time.
- Become a member as an individual or company - \$50.00 will help 2 women grow jobs - \$500.00 helps 20
- Become a Mentee and gain from the valuable insights and understanding that women in government, nonprofit, academia, business and corporations can offer you, your career and your organization.
- Become a partner to support the operational needs, software support, travel and training of our Mentors and help build the infrastructure of a legacy.
